

## Power Standards Lab PQBPNL-PQube Panel Mount Bracket

### PQube Plug-in Modules and Accessories

A convenient bracket assembly that enables you to mount your PQube to the front panel of your enclosure.

- Designed for use with a PQube bezel (either Open version, or 1P54 version)
- Accommodates a PQube®, a PS1 (or PS2) Power Supply Module, and either an ETH1 Ethernet Module, an XCT5 (or XCT4) Current Interface Module, or for combined Ethernet and current, use the CTE1 module.
- Hinged to allow easy access to all wiring terminals
- Includes panel mount RJ45 for easy access for Ethernet connection
- Wiring access holes for convenient cable routing
- Simple panel cutout required - Panel Mount Cutout
