

## Applications:

The digital panel meters **RISH DPM** 48 x 96 have been designed for industrial applications, which frequently require precise, on-site adjustment of the display range.

It can be used in industrial automation and for laboratory uses.

It provides cost-effective solution for virtually all switchboard instruments.

## Features:

- RISH DPM 48x96 ACA** is used for AC Current measurements.
- RISH DPM 48x96 DCA** is used for DC Current measurements.
- Scaling adjustable over a wide range ( 5 - 100 % ) of full scale

Highly adaptable DPM's suitable for a wide range of measuring applications.

Available in two different models for measurement of AC & DC current.

The chosen input range is user adjustable, on 100% of the full-scale value, for simple adaptation of the digital readout to the input value.

For example, **RISH DPM** 48x96 ACA can be scaled for standard 20 A secondary current transformers.

96 mm x 48 mm DIN-standard housings.
