

Fluke 1AC-I VoltAlert™

The new Fluke 1AC-I VoltAlert™. Non-contact voltage detection you can rely on.

1AC-I is in the newest addition to the VoltAlert™ ac non-contact voltage tester family from Fluke. It is designed to be pocket-sized and easy to use. Just touch the tip to a terminal strip, outlet, or cord. When the tip glows red you know there's voltage in the line.

Features and benefits:

- **NEW!** Always on, uses special low power circuitry to sustain battery life and added dependability
- **NEW!** Includes innovative 'Battery Check' button function to ensure battery is in good condition when using the tester, giving peace of mind any time you are testing*
- Voltage detection of 90 V ac to 1000 V ac, to suit a broad spectrum of residential, commercial and industrial needs
- CAT IV 1000 V overvoltage rated product for best in class add user protection
- Typical battery life of greater than one year, giving 24/7 365 days of added user protection
- Powered by 2x AAA batteries (included)
- Integrated clip design, optimized for pocket storage in a wide range of clothing thicknesses
- Rugged, reliable, and is built with the quality and accuracy expected from a Fluke tool
- Two-year warranty

*Use of Battery Check function is optional and for convenience only, it is not intended as a substitute for checking the unit on a known live source before and after use.
